

# HERCULES

## Stainless Steel Cabinet

### Information

Stainless steel cabinet meant to house and protect fire extinguishers.

The cabinet comes with a break glass to allow quick access to the key to open the lock.

It is also possible to fit the cabinet with a keyless turn lock. The keyless system is a simple but effective solution to stop key theft and management.

This cabinet allows it to be recessed in walls.

Option to go keyless

**Stainless Steel Material**

**1.0mm Thickness**

**Rust resistant**

**Key or keyless lock option**

Plastic breakglass
