## Product Description

Diamond PCD Shoes Grinding Plate removing paint and glue, traffic lines, fibreglass, epoxy and adhesives, expose aggregate or grind surface imperfections

### Application:

- Removal of thick coatings, epoxy, urethane & other membranes.
- Two full round PCD design provides extra support and ensures complete PCD life to the core
- For best results, use to remove the bulk of thick coatings without continued contact with concrete. Come back with an aggressive metal bond diamond segment and clean up any thin coating left behind. This helps to preserve the life of the PCD segments.
- Very aggressive, Long Lifespan
