

BK-850 Multi-function Spraying Machine

Features:

1. Spray gun and feeding tube connections can rotate and easy operation.
2. Construction of high efficiency and good quality.
3. Small size, convenient for on-site handling, and low cost of accessories.

Product Application

1. Plugging engineering applications
Water leakage of expansion joint, subway, tunnels, mine plugging, leak-proof projects, dams & other flood water leakage plugging projects.
2. Structure reinforcement projection applications crack
Reinforcement, bridge reinforcement, floor reinforcement.
3. Waterproof spray
Indoor and outdoor spraying, cement mortar spraying, putty powder coating, grouting, waterproof grouting and waterproof surface spraying, garden spraying, handicraft spraying, latex paint

Model	BK-850
Input Power	230V AC/50Hz
Drill Power	1300W
Air Compressor Power	1500W
Deliver	1-10L/min
Largest Particle	1mm
Working Pressure	20Bar
Viscosity	150-500 centipoise
Max Vertical delivery	10M
Max horizontal delivery	15M
Hopper	40L
G.W / N.W	60 / 55 kgs
Dimension (LxWxH)	76x49x98 cm
Applicable Materials	Cement, putty, power, paint, waterproofing materials
Price	\$ 1,460.00 / unit
Warranty	- 3 month from date of delivery against manufacturing fault. - Warranty does not cover any damage caused as a result of improper use, abuse, modification or alteration of the product.

Option Accessories:

Picture	Description	Price
	Item Code: BK850-01 Long spray gun with nozzle 50CM	\$ 130.00
	Item Code: BK850-02 Pump core and pump cover (Rotor)	\$ 165.00
	Item Code: BK850-03 10m High Pressure Hose with connector	\$ 120.00

	<p>Item Code: BK850-04 Grouting spray gun</p>	<p>\$ 85.00</p>
	<p>Item Code: BK850-04 Gasket seal</p>	<p>\$ 3.50</p>
