

High Technology Inverter Machine

## DAIKI MMA-200 / 250

- Inverter technology, easy to operate, very stable and smooth arc by constant current characteristics.
- Light weight and very suitable for outdoor welding application.
- Suitable for welding stainless steel and carbon steel.
- Widely used in light metal fabrication work, such as outdoor installation, installation, maintainance. Also in metal furniture, kitchen utensils and vehicle services.
- Energy saving, low power consumption, Compact, light weight, portable.

Parameter	Unit	MMA-200	MMA-250
Rated Primary Voltage	V	240	240
Power Source Frequency	Hz	50 - 60	50 - 60
Power Factor	Ø	0.92	0.92
Protection degree	-	IP 21	IP21
Rated Primary Input	KVA	4.9	6.6
Output Current Range	A	20 - 160	20 - 250
Max No-Load Voltage	V	60	60
Rated Duty Cycle	%	60	60
Weight	Kg	8.7	8.9
Overall Dimension	mm	370 x 170 x 303	370 x 170 x 303
