

HB Series High Pressure Water Jet

FEATURES AND BENEFITS

Energy efficiency: The pressure is 5-15mpa, which can achieve the best cleaning condition faster, save time and power; Small flow, can save water by 30%.

Convenient: Variable pressure/water flow regulation, adjustable directly on the machine; It takes up little space and is easy to transport in a service vehicle/estate car; Extendable push handle

Security: The shell and interior of the fuselage are insulated to avoid electric leakage and protect personal safety

High-quality: According to the international standard design, oil and water separation, protection of the motor; Imported German materials, comparable to international high-end brands

Design: Independent R & D design team, with design appearance patent. Ergonomic design for ease of use; Easy press trigger for effortless use.

Model	HB5/11C	HB6/15C	HB7/18C
Voltage	230V	230V	380V
Power	2200W	3100W	4700W
Pressure:	110 Bar	150 Bar	180 Bar
Rotation Rate	2800 rpm	2800 rpm	2800 rpm
Water Flow	8.6 L/min	9.3 L/min	11.67 L/min
Water Temperature	0-60°C	0-60°C	0-60°C
Net / Gross Weight	25 / 27.5 kgs	31.5 / 32 kgs	31.5 / 33 kgs
Machine Size	360*375*925 mm	360*375*925 mm	360*375*925 mm
Standard Accessories	<ul style="list-style-type: none"> • A long high pressure gun (or match up short gun) • Multifunctional nozzle, Have 3 water type –lower pressure, Fan, Line. • Single nozzle • Filter device – filter inclusion in the water. • 10M anti winding high pressure pipe. 		
Price	\$ 960.00	\$ 1,300.00	\$ 1,400.00
Warranty	<p>- 6 month from date of delivery against manufacturing fault. - Warranty does not cover any damage caused as a result of improper use, abuse, modification or alteration of the product.</p>
