

Densin High Pressure Cleaner

Applications

The high pressure cleaner is used for daily cleaning of machinery, vehicles and buildings. Removes stubborn dirt, stains and other debris stuck to multiple surfaces.

These heavy-duty High Pressure Cleaners are capable of removing any kind of dirt:

- Algae off concrete constructions
- Paint and graffiti off walls
- Dust, dirt, soil & mud off floors
- Oil & grease off engines and other mechanical parts
- Dirt and salt deposits off ship decks

Industries/Segments

- Manufacturing.
- Building & Construction.
- Offshore.
