

The VC2 vacuum cleaner is a single-phase model suitable for industrial dust collection and can be used for the absorption and collection of dust, liquid, particles and other materials.

## Features:

- Ametek motor\*3
- Metal motor head
- 3 independent switch
- Filter reverse jet pulse system
- Storage basket

CE

Model	VC2 Series
Voltage (V)	220
Power Output (kW / hp)	3.6
Vacuum (kPA)	27
Air Flow (m <sup>3</sup> /h)	540
Filter Surface (cm <sup>2</sup> )	40000 15000 (HEPA Kit as optional)
Filter Cleaning	Manual reverse jet pulse
Capacity (l)	75
Noise (dB)	73
Dimensions (cm)	65*75*142
Weight (kg / lbs)	78
