

INDUSTRIAL VACUUM CLEANER

The VC3 vacuum cleaner is a single-phase model suitable for vacuuming and collecting dust, liquid, particles and other materials under high strength requirements and long-term continuous working environment

It is widely used in construction, machinery, aerospace, glass, food, metal processing, electronics, automobile and other industrial fields.

Model	VC3
Voltage (V)	220
Power Output (kW / hp)	2.2
Vacuum (kPA)	27
Air Flow (m ³ /h)	300
Filter Surface (cm ²)	40000
Filter Cleaning	Auto-jet pulse
Capacity (l)	100
Noise (dB)	73/70
Dimensions (cm)**	1100*650*1260
Weight (kg / lbs)	130

** Subject to change
