

Vibrating Roller

TK-RL600

TK-RL750D

Description:

Our TKRL vibrating rollers are small-sized road compactors, which can be applied to roads working and maintaining and the rolling of expressway shoulder, side walk, parking area, sports ground and garden lawn, especially suited for compaction of pipeline channel and drainage trench and such narrow areas.

Model	TK-RL600	TK-RL750D
	Single Drum Roller	Double Drum Roller
Engine Model	Robin EY20-3	Super Power RD90N
Engine Type	Air-cooled, Gasoline Engine	Water-cooled, Diesel Engine
Centrifugal Force (kN)	11	15
Traveling Speed (km/hr)	0~3.0	
Grade Ability	25°	
Vibration Frequency (VPM)	4000	3600
Drum Diameter (mm)	480	400
Drum Width (mm)	600	650
Water Tank Capacity (L)	20	55
Starting System	Recoil Start	Hand Crank Start
Packing Dimension (cm)	150*65*98	255*70*112
Weight (kg)	400	1000
