

Hydraulic Handsaw System

HHS-10HP

Highly portable hand held saw for cutting of parapet and lift wall, wall window and door openings.

Light weight, self contained
Compact, easy to stow
Large wheel for site movements
Closed connections, highly efficient

Well balanced, ecological designed handle
allows this saw to be used in vertical and horizontal cutting
Direct drive, eliminates belt change
Powder coated tubular steel frame, sturdy and light
Adjustable blade guard allows entry from many angles

MODEL	HHS-10HP
Electrical	10 HP, 415 V 3 Ph, 50 Hz
	IP 55 Class F Insulation
	Star / Delta Starter
	Over Load Protection
	Auto Phase Reversal
Hydraulic	33 l/m 2500 psi
	Hydraulic Oil Cooler
	Suction and Return Filter
	Oil Level / Temperature Indicator
	30L Oil Reservoir
Hoses	2x Hydraulic 1x water (10m)
Weight	165Kg
Measurement	80 x 52 x 85cm

MODEL	16-18
About Size	1ins
Maximum Pressure	2500 Psi
RPM	2300
Flow	8 gpm : 33 L/m
Standard Blade Guard	16 ins
Cutting Depth	5 ¼ ins
Optional Blade Guard	20 ins
Cutting Depth	8.0 ins
Wiping Hose	51cm
Weight	14Kg
Measurement	76 x 64 x 20cm
