Hippo Series Hand Pallet Trucks

MINI & LOW PROFILE

Capacity
Mini : 500 kg
Low Profile : 1000 kg / 1500 kg

HIPPO 25/30/50

Capacity
2500 kg/ 3000 kg/ 5000 kg

STAINLESS STEEL/ GALVANISED

HIPPO-SS / HIPPO-GZ

Capacity
HIPPO-SS : 2500 kg
HIPPO-GZ : 2500 kg

HIGH LIFT HIPPO HLM 10

Capacity 1000 kg

HPT WITH SCALE

HIPPO-Scale /
HIPPO-Scale with Printer
Capacity 2000 kg

Super Hippo Series

Smaller Facilities

Lighter Goods Weight
or Lower Frequency

MP-15F3

Capacity: 1500 kg

- Entry level PPT
- Upgrade for HPT users with light duty, lightweight usage

MP-154 / MP-185

Capacity: 1500 kg / 1800 kg

- Medium to heavy duty operation
- 10% incline up to 1000kg
- Metal top cover for battery protection
- Stable driving even around corners – equipped with floating wheels

MP-1531

Capacity: 1500 kg

- Light to medium duty operation
- Simple and lightweight
- Easy battery plug-in, plug-out
- Available in 560 /685mm fork width

Electric Pallet Trucks

WALKIE PALLET TRUCK

MP-20A

Capacity: 2000 kg

- More powerful than the Super Hippo models
- Suitable for high frequency usage with shorter travel distances.

RIDER PALLET TRUCK

MPR-201 / 251 / 301

Capacity: 2000 kg / 2500 kg / 3000 kg

- Powerful drive motor
- Suitable for large warehouses with a lot of driving

RIDER PALLET TRUCK WITH CABIN

MPK-201

Capacity: 2000 kg

- Powerful drive motor – similar to MPR series
- Suitable for large warehouses with a lot of movement
- High speed driving operations
- Protected cabin ensures higher safety for operator

Stackers

Suited for Closed Pallets

WALKIE STACKER

Models: MS12A / MS14A / MS16A

Capacity: 1200 kg / 1400 kg / 1600 kg

Lifting height: 3000 – 5500 mm

- Medium duty usage, not for long distance travel
- Able to maneuver in smaller spaces
- Factory floors; Mid-sized warehouses

RIDER STACKER

Models: MSR-141D / MSR-16A / MSR-20A

Capacity: 1400 kg / 1600 kg / 2000 kg

Lifting height: 3000 – 5500 mm

- Medium to Heavy duty usage, with longer distance travel
- Suitable for small-medium sized 3PL to busy warehouses; FMCG; High frequency stacking activities

STRADDLE LEG STACKER

MSS-12A / MSS-14A / MSS-18A

Capacity: 1200 kg / 1400 kg / 1800 kg

Lifting height: 3000 – 5000 mm

- Can be used for closed pallets as well
- Light to medium duty usage, with relatively short-medium travel distance
- Factory warehouses, small to medium warehouses

COUNTERBALANCE STACKER

MSCR-10A / MSCR-12A /
MSCR-152A / MSCR-202A

Capacity: 1000 kg / 1200 kg / 1500 kg / 2000 kg

Lifting height: 3000 – 5000 mm

- Can be used for closed pallets as well
- Medium to heavy duty usage, with longer distance travel

Order Picker

MOPX0

MOPX2

ORDER PICKER

MOPH, MOPE, MOPX0/X1/X2

Capacity: 90 – 1000 kg

Lifting height: 3000 – 4800 mm

- Enables operator to travel with goods up to racking.
- MOPH - Small warehouses
- MOPE, MOPX0, MOPX1 – Small to medium warehouses
- MOPX2 – Medium to large warehouses

MOPH

Tow Tractor

TOW TRACTOR

MT series

Capacity: 1000 – 12000 kg

Operation type: Walkie, Stand-on and Sit-on

- Goods are towed by a towbar
- Different models available for small to large warehouses/facilities.

Electric Forklifts

ELECTRIC FORKLIFTS – 3-WHEEL & 4-WHEELS

MFL series

Capacity: 1500 – 5000 kg

Lifting height: 3000 – 7000 mm

Lithium Acid & Lead Acid batteries

- Heavy duty usage, with longer travel distances
- Compact models available for tight spaces
- Mainly used indoors and in container loading, but can also be used outdoors
- Available with cabin, air-conditioning, and various other accessories

Electric Forklifts

IC chassis

ELECTRIC FORKLIFT BUILT ON IC FORKLIFT CHASSIS, POWERED BY LITHIUM ION TECHNOLOGY

MFU series

Capacity: 2000 – 3500 kg

Lifting height: 3000 – 7000 mm

- Specifically Li-ion range
- Built on IC forklift chassis with higher ground clearance than regular electric forklifts
- Heavy duty usage, with long travel distances
- Large warehouses
- Used indoors/outdoor, similar to an IC forklift.
- Also suitable for container loading.
- Has the robustness of an IC forklift, but able to operate indoors.
- Available with cabin, air-conditioning, and various other accessories

Internal Combustion Forklifts

DIESEL, PETROL & LPG FORKLIFTS

Models: MFD, MFP, MFG series

Capacity: 1500 – 36000 kg

Lifting height: 3000 – 7000 mm

- Highly robust Lift Truck
- Heavy duty outdoor usage, with long travel distances on rough roads
- Suitable for large facilities
- Available with cabin, air-conditioning, and various other accessories

Reach Truck

REACH TRUCKS – STAND-ON TYPE

MRTST series

Capacity: 1500 kg

Lifting height: 3000 – 7500 mm

- Perfect for high frequency hop-on, hop-off activity by the operator.
- Medium to heavy duty INDOOR usage, with medium travel distances

REACH TRUCKS – SIT-ON TYPE

Model: MRTSE series

Capacity: 2000 kg / 2500 kg

Lifting height: 3000 – 12500 mm

- Medium to heavy duty INDOOR usage, with medium travel distances
- Suitable for large facilities

Narrow Aisle Trucks

NARROW AISLE TRUCKS

FLEX180

Capacity: 1300 – 2500 kg

Lifting height: 3000 – 13000mm

- Articulating body
- Aisle width: 2.2m
- 30% smaller aisle than reach trucks
- Used both indoor & outdoor

VERY NARROW AISLE TRUCK (VNA)

EK series

Capacity: 1100 – 2000 kg

Lifting height: 3000 – 16550 mm

- Operation: Man-up
- Aisle as low as 1200mm
- Roller or Wire guidance
- Works exclusively in aisles

CUSTOMER CARE

MAKE THE MOST OF YOUR EQUIPMENT

This starts with proper usage of your equipment. Your operators will receive training covering all technical and safety aspects and procedures for operation and maintenance.

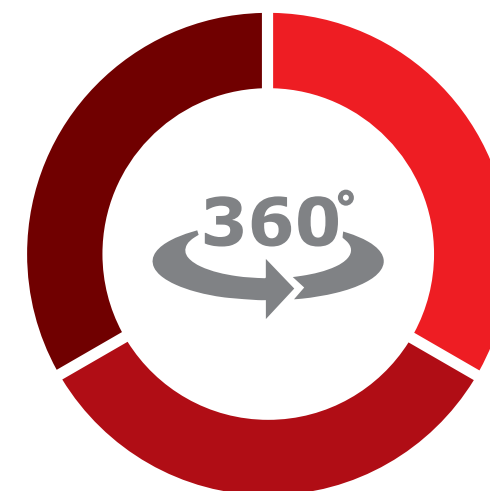

WHAT YOU NEED, WHEN YOU NEED IT MOST

We know that breakdowns and components wear and tear are inevitable however they shouldn't impede your operations. Our skilled service engineers and technicians are ready to assist you at the shortest time from our extensive service locations. Whether it's urgent repairs or essential replacements, we're here to ensure the continuity of your operations with minimal disruption.

PREVENTION THAT SAVES

Because prevention is more cost-efficient than correction, we are able to conduct equipment audits regularly or upon request. Detailed reports on the condition of your equipment help minimise equipment downtimes and hazards to optimise operating costs and keep employees safe.
