

# DEEBOT PRO M1

ECOVACS Professional Cleaning Robot

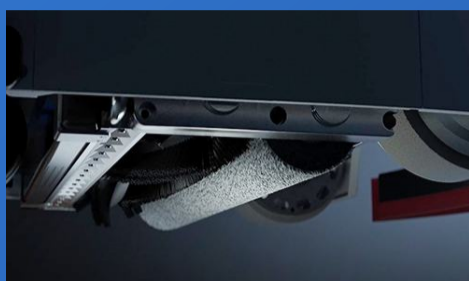

## PRODUCT HIGHLIGHTS

### Deep-Cleaning Mode

- Able to mix ECOVACS self-developed detergent automatically during scrubbing.
- 50cm floating pressurized dual roller brush, better cleaning while floor friendly.
- Multi-hole even water spraying to realize perfect.

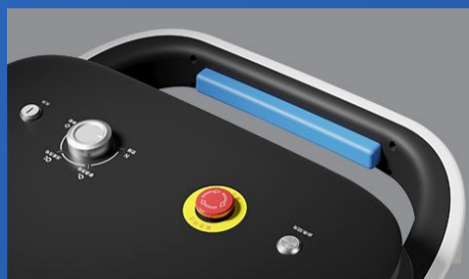

### Scrubbing/Dust Mopping/Sweeping in One Robot

- Meet various cleaning needs of hard floors.
- Sweeping is synchronized with scrubbing or dust mopping.
- Dual roller brush integrated lifting to avoid damaging the ground.

### Up to 8H Long Battery Life

- 8H battery life for dust mopping. 3.5H battery life for Scrubbing. 1.5H fast automatic recharge.
- Cleaning efficiency up to 1200m<sup>2</sup>/h.

### Manual Mode Available

- Quick switching between manual and auto modes.
- Easy manual operation with power handle.

## MORE FEATURES

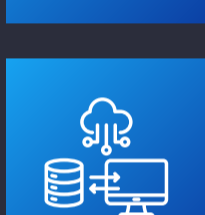

### Highly Automated

Smart cleaning route planning. Multi sensor fusion, accurate obstacle avoidance. Autonomous elevator riding. Autonomous passage through access control gates. Automatic recharging. Automatic refilling & draining.

### Customization Supported

Customizable appearance and display content.

### Digital Management

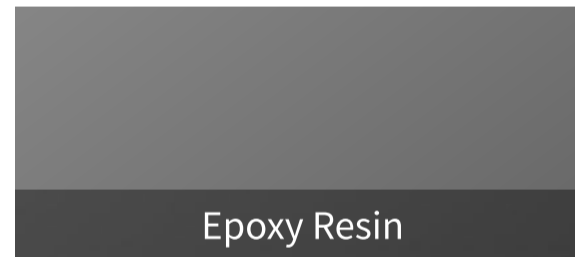

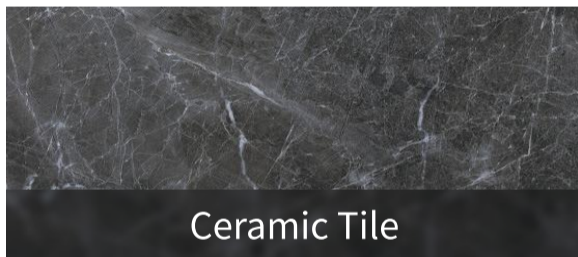

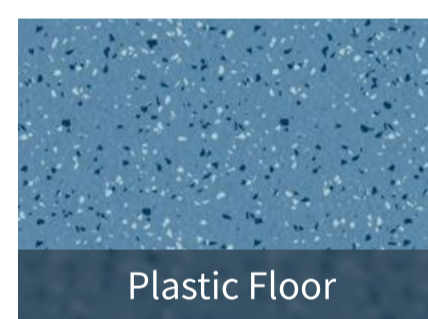

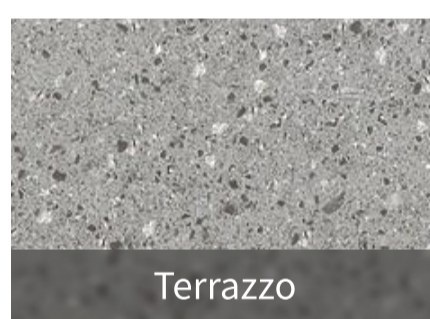

Dual control via APP and cloud platform for schedule-setting, assignment of temporary tasks, and other matters related to operation and maintenance.

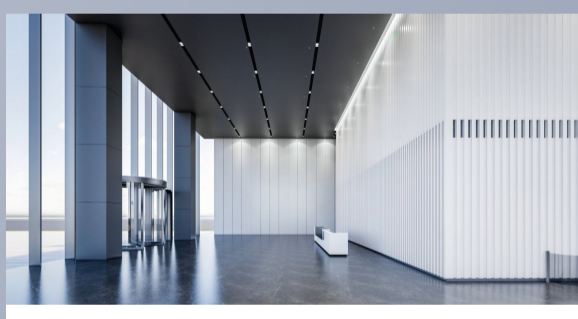

### Digital Analytics

Automatic visual cleaning reports available.

## SUITABLE FOR VARIOUS FLOOR TYPES

## SUITABLE FOR MULTIPLE FACILITIES
